

Heritage Understanding Course, New Delhi

BACKGROUND

INTACH Heritage Academy is envisioned to be a centre of excellence for training and capacity building in the conservation and management of cultural and natural heritage in India. The Academy aims to facilitate the implementation of the mission and objectives of INTACH across the sub-continent and in the wider international context. It is the first-of-its kind in the country, running programmes for training and capacity building in all aspects of heritage conservation and management.

The main objectives of the Academy are to:

- Encourage capacity building by developing skills through training programmes,
- Develop guidelines for conservation training at various levels,
- Promote and undertake research and documentation of traditional knowledge systems and building craft skills,
- Offer special courses on the conservation and management of natural and cultural heritage in different parts of the country,
- Connect the training and capacity building needs and potentials across various government departments, non-government organizations, academic institutions and professional bodies.

TARGET GROUPS AND INSTITUTIONS

There is a diverse group of experts, professionals, institutions and communities that are involved in various aspects of heritage conservation and management. These include:

Architects, landscape architects, engineers, town planners, surveyors and horticulturists; Art/Architectural historians, Archaeologists; Administrators; Owners of historic buildings; Builders and Contractors; Foremen and Attendants at heritage sites; Restorers and Conservators; Master builders and Craftsmen; Conservation Scientists and Laboratory Technicians; Academic institutions; Government authorities, Departments and Urban Local Bodies; Non-government organizations; Museum staff/curators; Tour guides, Heritage walk and Site interpretation volunteers; and the General Public and Local Communities.

A range of institutions that would be offered capacity building programmes include:

Archaeological Survey of India (ASI), State Departments of Archaeology (SDA), National and State Museums, Central and State Public Works Departments (PWDs and CPWD), National Building Construction Corporation (NBCC), Indian Institute of Public Administration (IIPA), Urban Local Bodies (ULBs), Local Municipalities, School of Planning and Architecture (SPAs), other Architecture Colleges, Postgraduate Architectural Conservation Programmes, Indian Institute of Technology (IITs), Regional Engineering and Vocational Training Colleges and so forth.

COMMENTS FROM PARTICIPANTS

“ *I would like if the course had more duration as it began a new interests in me for Heritage. ”*

“ *It is a constructive course. Should encourage more people to attend. It is important to understand the nature around us; because it is not the Earth that will die, it is us. ”*

“ *This inspired me as much for my culture and my city that now I surely will do something for Jammu city. ”*

“ *The entire workshop has been able to give vast knowledge on the Urban Lakes and Wetlands which will not only guide me in my profession but also as an individual to give my lending hands for the betterment of this cause. ”*

“ *I am personally very much satisfied with this training as this has awakened my love for art and buildings. ”*
